

Welcome to my Portfolio

Hi! I'm Kavinilavan Web

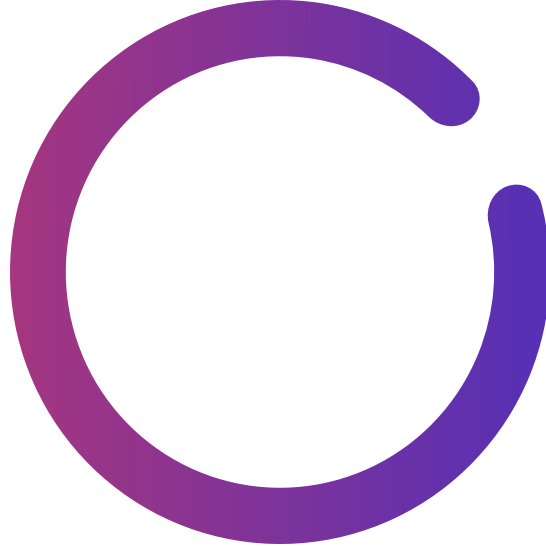

As an undergraduate student at the Sri Lanka Institute of Information Technology (SLIIT), I've cultivated leadership skills through collaborative group projects. I'm currently pursuing an internship in a dynamic IT firm, known for my unwavering commitment to

project completion and meticulous attention to detail. With a fervent passion for the IT industry, I'm highly motivated to explore and research its evolving facets.

Skills

I possess a diverse technical skillset spanning full-stack web development, mobile application design, and artificial intelligence. My expertise includes modern frameworks like React and Node.js, mobile tools like Android Studio, and advanced AI implementations using Python and TensorFlow. I am committed to applying these skills to build efficient, scalable, and innovative solutions.

AI Research

Detailed Expertise

Technical Skills

Programming Languages

Java, C++, JavaScript, SQL, PHP, C,
HTML, CSS, Python

Web Technologies

HTML, CSS, XML, React, Node.js,
Express.js

Database Management

MySQL, SQL Server, MongoDB

Design Tools

Figma, Adobe Photoshop, Canva

Version Control

Git, GitHub

Automation & Testing

Postman, Selenium

Office Suites

Microsoft Office, Google Workspace

Soft Skills

Project Management

Teamwork

Time Management

Education

2022(Oct) - Current

SLIIT - FACULTY OF COMPUTING

Completed Higher National
Diploma (HND)

Reading BSc (Hons) in Information
Technology Specializing in
Information Technology (Oct 2022 -
Present)

Work Experience

Intern - Software Engineer

Sri Lanka Telecom

2024 (OCT) - 2025 (MAR)

During my internship at Sri Lanka Telecom, I contributed to two key projects: The Incident Management System and The Inventory Management System. My role involved UI/UX design in Figma,

frontend development using React, and backend implementation with Spring Boot. I focused on creating user-friendly interfaces and ensuring seamless functionality across both systems, gaining hands-on experience in full-stack development within a professional environment.

Digital Marketing Executive

Riviera Group (PVT) LTD

2024 (OCT) - 2024 (DEC)

As a Digital Marketing Executive at Riviera Group Pvt Ltd, I manage online marketing strategies, create and execute social media campaigns, and develop engaging content to enhance brand visibility. My role involves optimizing digital presence, analyzing marketing performance, and implementing effective strategies to drive customer engagement and business growth.

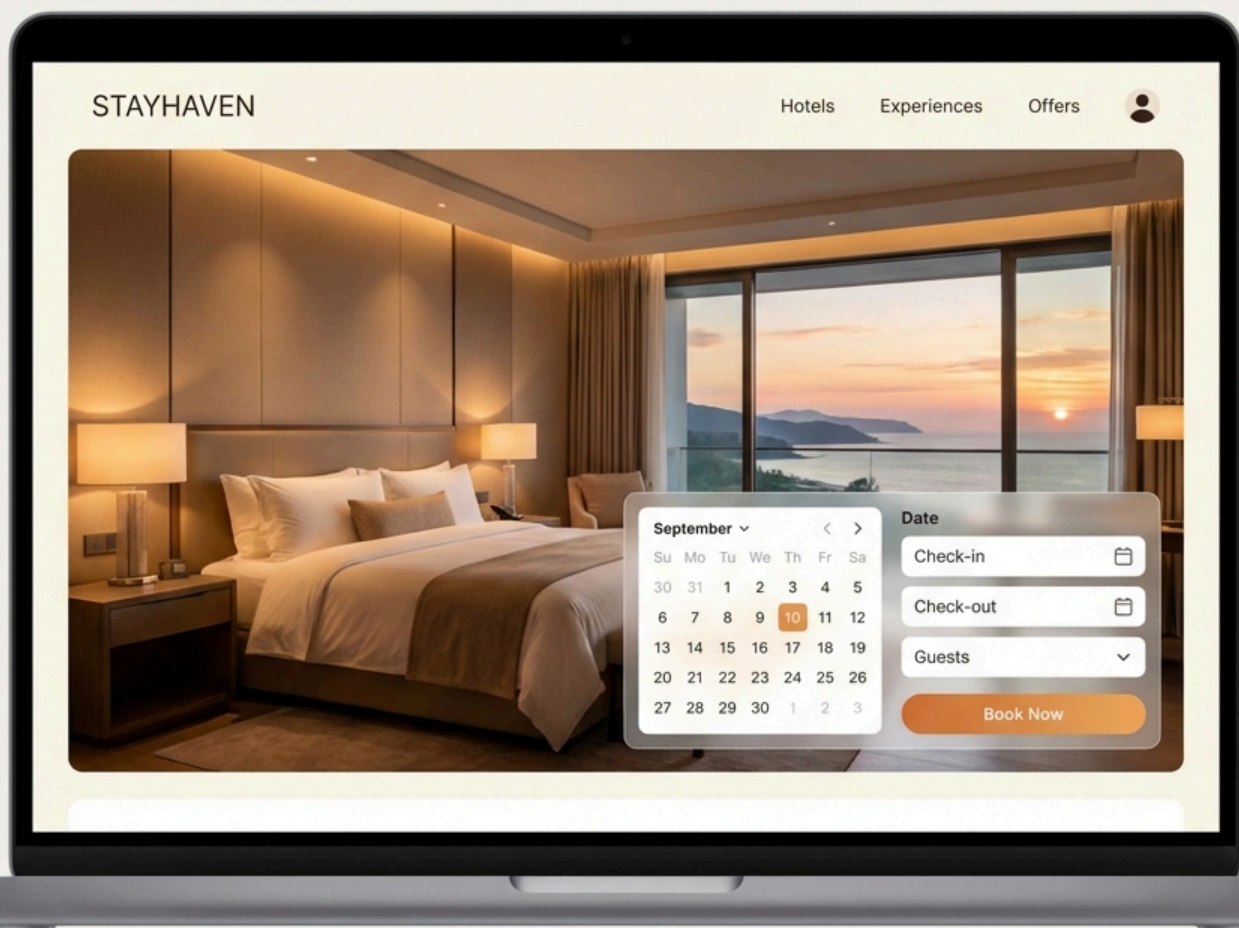

Projects

My passion for technology drives me to explore innovative solutions. From web development to advanced research in AI and mobile applications, these projects represent my journey in mastering new technologies.

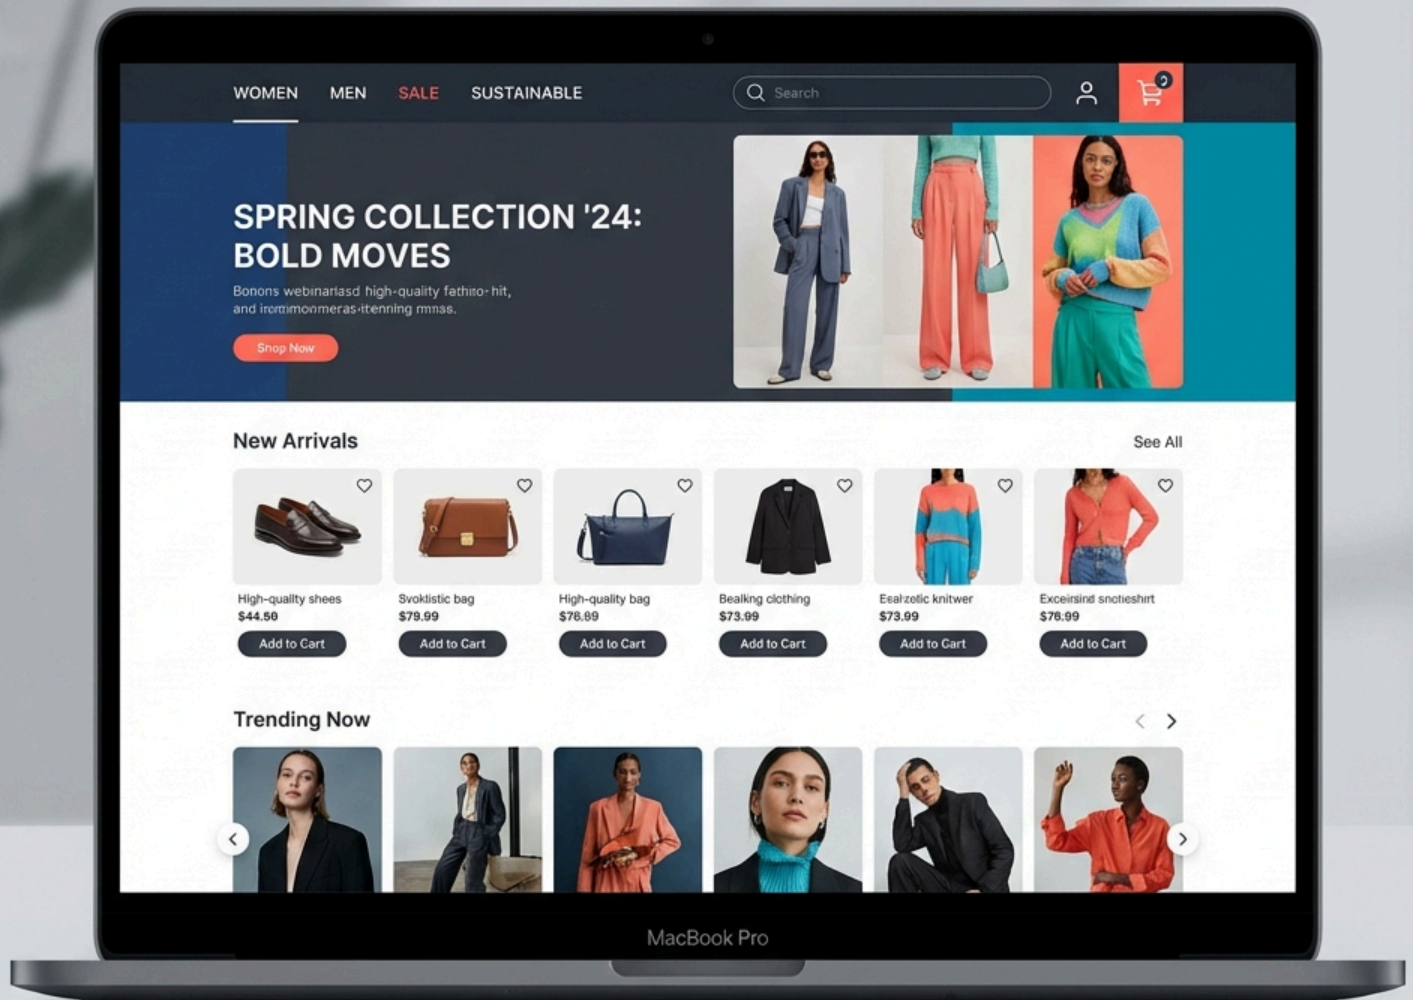

Projects Expertise Vision

Dog Skin Disease Detection using AI

Online Hotel Reservation System

Online E-Commerce System

Smart Watch App UI

Online Travel Booking App UI

Reflective Journal

My journey through the Professional Practice Workshop (PPW) has been transformative. Here's a reflection on what I've learned and how it has shaped my professional outlook.

Key Learnings from PPW

- ▶ **Professionalism:**
Understanding the importance

of ethics and conduct in the IT industry.

- ▶ **Communication:** Improving verbal and written communication skills for effective team collaboration.
- ▶ **Teamwork:** Gaining experience in agile methodologies and group project management.
- ▶ **Career Readiness:** Learning how to build a strong professional brand and prepare for the job market.

These sessions have provided me with a solid foundation to transition from an undergraduate student to a professional IT

practitioner. The practical insights shared during the workshops have been invaluable in understanding real-world industry expectations.

Career Development Plan

My roadmap to becoming a leader in the IT industry, focusing on continuous learning and professional growth.

Short-term Goals (Next 1-2 years)

- Complete my undergraduate degree at SLIIT with a high

GPA.

- Secure a challenging internship/junior role in Web Development or AI Research.
- Master modern frontend frameworks like Next.js and Tailwind CSS.

Medium-term Goals (3-5 years)

- Advance to a Senior Developer or Tech Lead position.
- Contribute to significant open-source projects or publish research in AI.

- Obtain professional certifications in Cloud Computing (AWS/Azure).

Long-term Goals (5+ years)

- Take on architectural or management roles, leading large-scale technical projects.
- Stay at the forefront of emerging technologies like Quantum Computing or Advanced Robotics.

- Mentor junior developers and give back to the tech community.

Certificates

Professional certifications
obtained for technical and soft
skill development.
